

ZEUSNUMERIX

SLAM

SAFE AND LETHAL AERIAL MUNITIONS

UAV AGNOSTIC SOLUTION FOR
Lethality, Economy, Safety and Scalability

- » **UVW, an Integrated Weaponization Kit**
- » **Three types of Ejector Rack Units (ERU)**
- » **Six types of UAV Dropped Munitions (UDM)**

LESS is More

Lethality

- » Anti-personnel, Anti-Roof and Anti-Vehicle roles
- » 3, 6, 8, 10, 15, 25 Kg munitions with 40-45% warhead weight
- » Aerial alternative to mortar, RPG rockets, tank/artillery shell

Economy

- » Considerably economical compared to micro-missiles
- » Multiple UDM delivery per mission (Tribhaahu)
- » 3 times warhead in same weight class

Safety

- » Dual safety in ERU and Triple safety in UDM as per MIL STD
- » Health monitoring & Emergency jettison in UDM
- » Release confirmation & pre-programmed self destruct

Scalability

- » UVW compatible to any UAV with lifting capacity
- » Integrated to 10+ UAVs of various classes
- » Separate or GCS integrated weapon control console

Flight Test in HAA @ 4200 AMSL

UAV with ER 55 Tribaahu

Electronic Fuse

Helicopter with
ER 25 Vajrabaahu

Fixed Wing VTOL with
ER 8 Agnibaahu

ABOUT US

Zeus Numerix is a defence company with smart and autonomous munitions products. Zeus has end-to-end technology stacks and experience for these products like configuration design, rugged electronics, guidance and control algorithms to fabrication and firing trials. Precision Guidance Kit (PGK) for mortar and UAV Weaponization Kit (UVW with ejector rack and munitions) are two of our flagship products. Zeus has worked on 300+ defence problems in our 20+ years existence.

SPEAR Philosophy for Munitions Development

Small

Easy Logistics | Occupy Less Volume
Man Portable

Precise

Falls on target | Less collateral damage
Less number required

Effective

Less production cost
Less firing cost | Lethal

Autonomous

Deliver by machine | No human
life risked | Less errors

Reliable

On time delivery | Safe in handling
Lethal when desired
